

THE TASK IS TALL. ARE YOU READY?

Globally Harmonized System of Classification and Labeling of Chemicals

Key Transition Dates

December 1, 2013

- All employees who come in contact with chemicals to be trained on new formats
- Training staff is your responsibility
- Ecolab offers tools to help you train

December 1, 2015

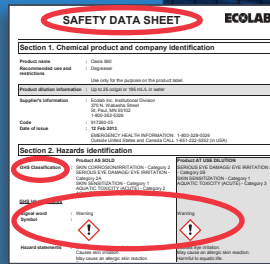

- Products sold through distribution must be GHS-compliant

June 1, 2016

- All chemical product inventory must have GHS-compliant labels
- Employers must have updated workplace hazard communication programs

What is Changing

SAFETY DATA SHEET

PRODUCT LABELS

PICTOGRAMS

Be Aware

- Recognize that OSHA has changed the hazard communication standard and GHS deadlines are coming fast
- Understand that regulations impact every chemical product
- Know that the risk is significant

Be Prepared

- Recognize the need to plan ahead, train your staff and manage inventory
- Understand that SDSs and product labels are changing
- Know your role in creating a safe workplace

Trust Ecolab

- Recognize the need to partner with an industry leader
- Understand the resources available to support your GHS transition
- Know that Ecolab will help make your transition worry-free
